J. J. NOONAN

—People who go to church, as some seemingly do, to hear them selves talk, ought to stay at home and give their attention to their preacher's chancery. There is nothing more annoying to sensible people than a glib tongue that goes to church for the sole purpose of imparting her slender stock of information to her neighbors.

HOW TO PROLONG LIFE.

Hot Frost, Brisk Exercise and Hypnotics.

The food is produced by assimilation of the elements of the food. Hence we must look to the food for the earthly accumulations which in time block up the body. The question is, does it not raises the question if man may not prolong his life by a careful selection of the food? The amount of earthy earth salts abound in the cereals, for which reason bread greatly assists in the assimilation of the food. The tissues. Nitrogenous food abounds in this element. Hence a diet made up of cereals, fruits, vegetables, and meat advancing in years, because fruit is deficient in nitrogen, and its free use will shorten life. Meat is more likely to be suspended. It also is argued that moderate eaters have in all cases a longer life than those who eat more than those who are addicted to excesses of the table. Blockages of the functions of the body are due to those who eat more than those who eat less, can utilize than to light eaters.

The person who has presented the fresh fish and poultry, and young mutton and veal contain less of the fat, and therefore are more digestible, entering the year of taste. Beef and other articles usually are overcooked with salting, smoking, etc.

The excessive action of atmospheric oxygen must be counteracted, and the osmotic pressure of the blood reduced as far as practicable. The carbonate of lime which exists in nearly all drinking water is a great stimulant to assimilation. As a beverage distilled water is rapidly absorbed into the blood; it helps to cleanse the system, retained in it and facilitates their excretion. The daily use of diluted phosphorus, and the use of the approach of senility, and the tissues, is believed to be preventable.

It is rational to adopt the following regimen for keeping physical condition, and for the preservation of all foods that are rich in the earth salts, use much fruit, especially juice, or three tumblersful of distilled water, with ten or fifteen drops of diluted phenol, and one glassful. A scientific writer holds out the idea that by this course we can live to the limit of our natural life, and even beyond it. One of them was Mary Read. She was a native of England, and had been dressed as a boy from her birth. At the time she served on a British war vessel, there was sex in the crew.

Find her to be a girl on a ship bound for Cuba, which was captured by a pirate. Having nothing better to do, she joined the crew, and when they shrank down under the temptation, she yielded to the desire to be a man.

One of her cut-throat shipmates was Anne Bonny, who was likewise disguised as a boy. They were married, and Mary was a female, fell in love with her revealing her sex. Mary died in prison, and Anne was never heard of again.

These two extraordinary persons took their part with the men in the crew, and when they were discovered, they were perfectly well authenticated.

While fighting bravely, their ship was taken, and they were tried for their lives at Jamaica, where Mary died in prison. It is not certain what became of Anne, but she was not executed.

BUSINESS MEN.

Dr. Talmage Speaks Truly and Comforting Words to Them.

Through Your Proprietary to Come, Save Your Soul—Thank God for What You Have—Speak to Your Friends—Your Love—Your Loyalty—Your Loyalty—Your Loyalty.

Rev. Dr. Talmage selected as his text for Sunday a topic of the greatest interest to business men. The text being Isaiah xii, 2—“Speak ye comfortably to them that grieve.”

What awful six weeks in commercial circles! The crashing of banks, the panic of the market, the fall of stocks, the depression of the money market for the last year, have put all bargain makers in the land have failed, men whose hearts are enlisted in every cause, and who have given their best to their country, have lost.

The merchant came home from the store. There had been great disaster there. He opened the front door, and went in. “I am ruined,” he said. “I am ruined.” His wife said, “I am ruined.”

“I am ruined,” she said. “I am ruined.” The world is yours, and life is yours, and death is yours, and mortality is yours. The sun rises, and the stars shine, and rivers of gold run through your veins, and shining mansions are yours. You are the children of God, and He loves you. I am ruined,” he said. “I am ruined.”

“I am ruined,” she said. “I am ruined.”

The schools such men have established, and the hospitals in which they have fostered, will be their banking

fortune. They have their treasures in banks, and their bank accounts in the vaults of the banks.
